SELECT INDUSTRY SPONSORED STUDENT PROJECTS

Appalachian State University, Boone, North Carolina

- 2014 **Wilsonart International Inc.**
Design Project: \$40,000 donation in material, expenses, travel, and prize money. A highly competitive annual design competition awarded to only one design program per year. Students are required to design and fabricate a signature chair that showcases Wilsonart's high pressure laminate. 26 students participated.
Project Outcome: Final critique was held at the Turchin Center for the Visual Arts by an esteemed panel of judges from Architectural Digest, Surface Magazine, a curator from the Mad Museum in NYC, and the Vice President of Wilsonart. The six finalists will have their prototypes shown in a 400 sqft exhibition space at the International Contemporary Furniture Fair (ICFF) in New York (May 2015).
- 2014 **Milan Furniture Fair Studio for Solar Decathlon Europe**
Design Project: Material donation by Infinlight Products. Additional support by the University. This project had two goals. (1) Design and fabricate lighting concepts for exhibition at the Milan Furniture Fair (largest trade fair in the industry). (2) Make design refinements and construct furniture that would be going to Solar Decathlon Europe after being exhibited in Milan.
Project Outcome: Through my professional contacts I was able to secure an invitation for the Industrial Design Department, the first international showing for the program. Appalachian State was 1 of 2 American design schools among 15 international schools. The work was well received and resulted in positive recognition and promotion of Appalachian State's Industrial Design Program. In addition, it exposed students to the international furniture industry.
- 2012 **Eastman Chemical: Perennial Wood**
Design Project: Find new applications for Perennial Wood, primarily used as a decking product, by designing and fabricating outdoor furniture. Due to Perennial Wood's limited use as decking, extensive research by participants had to be conducted for UV stability, finishing applications, machinability, and joinery.
Project Outcome: This project was coordinated collaboratively across programs. Final work was displayed in 2013 at the International Contemporary Furniture Fair in New York and the High Point Furniture Market in North Carolina. In addition to the design and construction of furniture, each industry venue (ICFF and High Point) required a custom fabricated exhibition booth. Three Innovation Lab Videos were done featuring the project and process.
- 2012 **Groovystuff, Furniture Company**
Design Project: Design a piece of residential furniture that fits within Groovystuff's product brand. I implemented this competition and worked closely with Groovystuff to develop royalty contracts and the project brief. Since the initial success of this program the competition has run a second time.
Project Outcome: Since the program has run this studio, 8 students have received Royalty contracts and are featured in the Groovystuff catalog with products being placed in production and showcased at the High Point Furniture Market. In addition each first place winner received a \$1,000 bonus award.
- Savannah College of Art & Design, Savannah, Georgia**
- 2009 **Urban Outfitters, Savannah Retail Store**
Design Project: Design cash wrap and merchandising unit.
Project Outcome: Winning designs were fabricated and installed for new store.
- 2009 **City of Savannah, Chatham Area Transit**
Design Project: Design bus shelters for use throughout the city of Savannah that compliments the city's urban aesthetic.
Project Outcome: Installation of winning design in Historic Downtown Savannah.
- 2006 **Appalachian Hardwoods Association**
Design Project: Design and fabricate a piece of furniture exemplifying the beauty and versatility of red oak. Project included donation of 1400 BF of red oak.
Project Outcome: Promotion of the winning designs through web sites and marketing material.
- 2006 **Hickory Business Furniture**
Design Project: Design a compatible side chair to fit within HBF's existing product line. Project included factory tours, critiques at the corporate office and evaluation by the President and Vice President of Design.
Project Outcome: Winning design produced as a sample, priced for production and inclusion in product line. Second place student was awarded an internship.
- 2003 **Eastman Chemical: Clear Office System**
Design Project: \$12,000 material donation by Eastman to develop new uses for clear/translucent PETG "Spectar". Design brief was "Clear Office System". The goal, develop clear furniture for the office environment.

Project Outcome: Scale models and presentation boards used in company promotional venues marketed to interested manufacturers.

- 2001 **Portable Vignettes: Team Project**
Design Project: Multiple sponsors and donations. Twenty week team oriented project to develop 5 portable rooms. Sponsors, budget, and time management all student initiated.
Project Outcome: Portable bedroom and living room shown at ICFF (International Contemporary Furniture Fair).
- 2000 **Dupont Corian®**
Design Project: Donation by DuPont of \$15,000 worth of material to develop furniture techniques utilizing Corian®.
Project Outcome: Student work shown at the Milan Furniture Fair.
- 1999 **Frank Miller Lumber Company**
Design Project: \$5,000 material donation to highlight use of quarter-sawn lumber in furniture.
Project Outcome: Purchase prize award. Furniture used in company's promotional venues, showroom, and exhibitions.

CURRICULUM DEVELOPMENT

Appalachian State University, Boone, North Carolina

- 2013 **Material & Processes I (IND 2120)**
New Course Content: Rewrote class to become a design based class emphasizing design process while learning wood and metal techniques. This approach results in portfolio quality work.
- 2012 **Preliminary Design Studio (IND 2421)**
New Course: An introduction to furniture design and the furniture industry.
- 2010 **Professional Practice in Industrial Design (IND 4811)**
New Course: Students develop personal branding; contact 10 companies; learn about contracts; take part in a mock interviews; and visit professional design offices and manufacturing facilities. Students leave this class prepared to start interviewing for employment and internships.

Savannah College of Art & Design, Savannah, Georgia

- 2004 **Exhibit Design Minor**
Developed course work and sequence for new minor.
- 1997-2005 **Furniture Design Undergraduate**
Development and refinement of undergraduate curriculum for industry relevance.
- 1998-2005 **Furniture Design Graduate**
Development and refinement of graduate curriculum to emphasize conceptual growth, exploration, and industry relevance.
- 1996 **SACS Accreditation & Campus Visit**
Curriculum committee for furniture and industrial design.
