

Awarded, Published and Internationally Exhibited photographer:

Born in Paris, raised in Tehran and Boston, with a little over 2 years of dormancy in Lisbon, Armineh is an iPhoneographer now based in Los Angeles, capturing moments since 2009. She is one of the early members of the iPhoneography movement. She has had no professional training however her vision has been the driving force behind her creations. She also shoots with her DSLR camera. For the time being, photography is a hobby.

Artist Statement: My photographs are not generally planned in advance, and I do not anticipate that the onlooker will share my viewpoint. However, I feel that if my photograph leaves an image on the viewer's mind, something has been accomplished.
